Purposes

The Education Administrative Council (EAC) is an information-sharing and advisory council for the College of Education. The Dean’s Office administrators and members of the EAC share news, data, and upcoming issues/concerns. The department heads and directors provide updates on their units to the Dean as needed. Feedback from the EAC is reviewed and used to implement improvements and other changes as necessary.

Membership

Membership of the EAC consists of Dean’s Office administrators, the department heads of each of the college’s academic departments, the division head of the Meridian Division of Education, and the directors of the college’s centers and institutes. Members serve on the EAC for the duration of their time in office.
