Dr. Mitzy Johnson	Assistant Dean, College of Education

Purposes

The role of the Graduate Coordinators Advisory Council (GCAC) is to provide recommendations to the Dean of the College of Education on matters related to graduate programs in the college. Those recommendations relate to graduate faculty appointments, curriculum requirements, and similar issues. Each department with graduate degree programs in the college has one representative on the GCAC. That person is typically the Graduate Coordinator for his/her department. Members will serve two-year terms and can be re-elected but cannot serve more than two consecutive terms.
