Dr. Charles Palmer	Counseling, Educational Psychology, & Foundations
Dr. Chien Yu	Instructional Systems & Workforce Development

Purposes

The role of the Graduate Coordinators Advisory Council (GCAC) is to provide recommendations to the Dean of the College of Education on matters related to graduate programs in the college. Those recommendations relate to graduate faculty appointments, curriculum requirements, and similar issues. Each department with graduate degree programs in the college has one representative on the GCAC. That person is typically the Graduate Coordinator for his/her department. The GCAC meets throughout the academic year on the first Friday of each month at 2:00 p.m. starting in September.

“Changing Tomorrow Through Education Today”
